## Hold Harmless Waiver – Non-Operable Vehicles

I have been advised that the vehicle I wish to ship through Seacor Island Lines has been classified as “**non-operable**” due to the following conditions (please check all that apply):

- Cracked or damaged windshields or windows
- Flat, missing or damaged tires or wheels
- Leaking fluids (Will Not Be Accepted)
- Deployed airbags
- Non-functioning brakes
- Unable to stay running under its own power source
- Out of fuel/gas
- Other- Please describe \_\_\_\_\_

I understand that vehicles in the above conditions cannot be driven safely by Seacor Island Lines employees and must be mechanically lifted directly onto the Ship’s Deck. I have also been advised that an additional fee will be charged for this service:

- Automobile : \$150.00 each
- Heavy Equipment: \$700.00 each

Reasonable effort will be made to load vehicles under this classification with care; however Seacor Island Lines is not liable for damage that may result from mechanically lifting the vehicle.

I agree to indemnify and hold harmless Seacor Island Lines from and against all claims, loss, damage and expenses stemming from the aforementioned operations.

I further to agree to pay Seacor Island Lines for any damage done to any Seacor Island Lines equipment or property including, but not limited to the containers involved. I agree that any such charges may be invoiced on the Bill of Lading applicable to the ocean carriage of the involved cargo.
